MOBILE Light Tower

From the leading manufacturer of light towers, Generac's Magnum Power Products introduces a revolutionary twist on the traditional vertical mast light towers. This line combines the best of innovation and technology and offers rental customers a durable, attractive package that is loaded with must have features.

Standard features include:

- Vertical mast with ergonomic two-handed winch that deploys in seconds
- The largest fuel tank in its class allowing your customers up to 90 hours of run time
- Service interval extended by 100% (750 hours in between service)
- Trailer & control panel lights operate while running for greater visibility and added safety
- A corrosion proof poly shell that is durable and can withstand the toughest applications
- The best ROI in class *
- A wider wheel base and longer tongue for improved towing stability
- Built in tilt positioning so lights start out in a consumer preferred angle

24-7 support system with a nationwide network of technicians - because when you're on the job we are on the job
